Voice of CSOs in Fighting Trafficking in Human Beings |

Guidelines
for grant applicants

Budget line 6.2. Sub granting to CSOs

Reference: EuropeAid/167126/DD/ACT/BA

Contract No: 2020/421-676

Deadline for submission of full application: August 15th, 2022

NOTICE

This is an open call for proposals, where all documents are submitted together (concept note and full application). In the first instance, only the concept notes will be evaluated. Thereafter, for the lead applicants who have been pre-selected, the full applications will be evaluated. After the evaluation of the full applications, an eligibility check will be performed for those which have been provisionally selected. Eligibility will be checked on the basis of the supporting documents requested by the contracting authority and the signed 'declaration by the lead applicant' sent together with the full application.

1. VOICE OF CSOS IN FIGHTING TRAFFICKING IN HUMAN BEINGS

1.1. BACKGROUND

Grassroots and other CSOs and other community actors face various challenges in BiH: limited capacities; continued reluctance of governments to view CSOs as true partners; weak dialogue to facilitate collaboration between governments and CSOs on anti-trafficking and related issues. Information sharing among CSOs, or CSOs and governments, only occurs informally or at conferences, where it is common for only those CSOs well-known to donors and the relevant governments in the subject locality to be present.

The proposed action will directly address the problems of a deeply fragmented and institutionally **weak** civil society in Bosnia and Herzegovina that is dominated by small grass root organizations operating locally on the protection of interest and rights of specific marginalized groups, including CSOs engaged on the suppression of victims of trafficking in human beings (THB), that are lacking the support of institutions, are financially unstable, dependent upon international support and barely financed by government institutions, and are operating in a politically and administratively complicated environment of a strong nationalist discourse, where human rights, freedom of expression and any such dialogue with public authorities are strongly hampered in a poor democratic space and narrow operational environment.

Strengthening CSOs capacities for policy monitoring and advocacy, as well as CSOs coordination, cooperation and information sharing through the online media platform, and its linkages to the responsible ministries will directly contribute to the implementation of Guidelines for EU Support to Civil Society in Enlargement Countries 2014-2020', promoting the creation of a conducive environment for civil society development, and foremost strengthening the capacities of civil society organisations to engage in structured dialogue with the public institutions on the protection of human rights of victims of human trafficking and people at risk of being trafficked, specifically preventing their stigmatization and marginalization, especially that of Roma nationals who are often subject to human trafficking in Bosnia and Herzegovina, increasingly for forced begging, forced marriages and domestic servitude.

Targeted and other CSOs in BiH will benefit from enhanced internal capacities and organizational structures to ensure sustainability and financial viability, as well as improved capacities to assist and protect victims of THB and GBV, and individuals at risk of being trafficked. Identifying and supporting grassroots CSOs in stronger engagement in anti-trafficking actions will ensure existence of adequate actions/responses to vulnerable groups, where such action is crucial for victim identification, rehabilitation and reintegration.

1.2. OBJECTIVES OF THE PROGRAMME AND PRIORITY ISSUES

The **global objective** of this call for proposals is to support and empower CSOs across BiH to suppress trafficking in human beings, including enhancing their internal capacities and organizational structures to ensure sustainability and financial viability in the complex BiH environment.

The **specific objective(s)** of this call for proposals is to support CSO landscape in BiH, by involving CSOs from Bosnia and Herzegovina in monitoring and advocacy actions on prevention of human trafficking and protection of victims.

The priority of this call for proposals is to contribute to CSO monitoring capacity and ensuring sufficiency of data on practical implementation of national law and policies related to human trafficking as well as enabling a pathway for CSOs to directly engage in national and regional activities. Priority of the action is to support civil society initiatives to contribute to monitoring and collecting data for reporting on implementation of the legal framework and policies regarding provision of assistance to victims of THB, with focus on the rights of women victims of THB within the NRM.

1.3. FINANCIAL ALLOCATION PROVIDED BY THE CONTRACTING AUTHORITY

The overall indicative amount made available under the sub granting activity is EUR 45,000. So far two grants have been approved thus the amount available under this call for proposals is EUR 15,000.

The contracting authority reserves the right not to award all available funds if the quality of submissions is not appropriate.

Size of grants

International Forum of Solidarity - EMMAUS aims to award 3 (three) projects in total. In the third round the IFS-EMMAUS aims to support at least one (1) project of the appropriate quality.

Any grant requested under this call for proposals must fall between the following amounts:

- minimum amount: EUR 10,000
- maximum amount: EUR 15,000

The grant needs to cover the entire eligible costs of the action.

2. RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of the actions financed under this call, in conformity with the practical guide, which is applicable to the present call (available on the internet at this address <http://ec.europa.eu/europeaid/prag/document.do?locale=en>).¹

2.1. ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:

(1) the actors:

- The **'lead applicant'**, i.e. the entity submitting the application form (2.1.1),
- if any, its **co-applicant(s) (where it is not specified otherwise the lead applicant and its co-applicant(s) are hereinafter jointly referred as 'applicant(s)')** (2.1.1),
- and, if any, **affiliated entity(ies)** to the lead applicant and/or to a co-applicant(s). (2.1.2);

(2) the actions:

Actions for which a grant may be awarded (2.1.4);

(3) the costs:

- types of cost that may be taken into account in setting the amount of the grant (2.1.5).

¹ Note that a lead applicant (i.e. a coordinator) whose pillars have been positively assessed by the European Commission and who is awarded a grant will not sign the standard grant contract published with these guidelines but a contribution agreement based on the contribution agreement template. All references in these guidelines and other documents related to this call to the standard grant contract shall in this case be understood as referring to the relevant provisions of the contribution agreement template.

2.1.1. Eligibility of applicants (i.e. lead applicant and co-applicant(s))

Lead applicant

(1) In order to be eligible for a grant, the lead applicant must:

- *be a legal person, non-profit-making civil society organisation, registered under relevant laws in Bosnia and Herzegovina;*
- *be entitled to carry out in Bosnia and Herzegovina activities described in its project proposal;*
- *have been active for at least 5 years in the fields of preventing and combating human trafficking, protection of the child from violence, combating gender based violence, and human rights protection*
- *have the reputation, sufficient operational and financial capacity and capability, including staff, to carry out activities described in its project proposal in a quality manner;*
- *have sufficient financial capacity (stable and sufficient sources of funding) to maintain its activity throughout the period for which the grant is awarded and to participate by way of its own resources (including human resources);*
- *be compliant with EU requirements placed on project partners within the project;*
- *be committed to combating human trafficking;*
- *have a bank account*

Multiple applications are not allowed and shall lead to the exclusion of all applications concerned.

Lead applicant is directly responsible for the preparation and management of the action, and may act with the co-applicant(s). The Lead applicant may not act as an intermediary.

(2) Potential applicants may not participate in calls for proposals or be awarded grants if they are in any of the situations listed in Section 2.6.10.1 of the practical guide;

Lead applicants, co-applicants, affiliated entities and, in case of legal entities, persons who have powers of representation, decision-making or control over the lead applicant, the co-applicants and the affiliated entities are informed that, should they be in one of the situations of early detection or exclusion according to Section 2.6.10.1 of the practical guide, personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the early detection and exclusion system, and communicated to the persons and entities concerned in relation to the award or the execution of a grant contract. In this respect, lead applicants, co-applicants and affiliated entities are obliged to declare that they are not in one of the exclusion situations through a signed declaration on honour (PRAG Annex A14). For grants of EUR 60 000 or less, no declaration on honour is required.

In Part B Section 8 of the grant application form ('declaration(s) by the lead applicant'), the lead applicant must declare that the lead applicant himself, the co-applicant(s) and affiliated entity(ies) are not in any of these situations.

The lead applicant may act individually or with co-applicant(s)

If awarded the grant contract, the lead applicant will become the beneficiary identified as the coordinator in Annex G (special conditions). The coordinator is the main interlocutor of the contracting authority. It represents and acts on behalf of any other co-beneficiary (if any) and coordinate the design and implementation of the action.

Co-applicant(s)

Co-applicants participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the lead applicant.

Co-applicants must satisfy the eligibility criteria as applicable to the lead applicant himself.

Co-applicants must sign the mandate in Part B Section 4 of the grant application form.

If awarded the grant contract, the co-applicant(s) (if any) will become beneficiary (ies) in the action (together with the coordinator).

- (3) Applicants included in the lists of EU restrictive measures (see Section 2.4. of the PRAG) at the moment of the award decision cannot be awarded the contract².

2.1.2. *Affiliated entities*

Affiliated entity(ies)

The lead applicant and its co-applicant(s) may act with affiliated entity(ies).

Only the following entities may be considered as affiliated entities to the lead applicant and/or to co-applicant(s):

Only entities having a structural link with the applicants (i.e. the lead applicant or a co-applicant), in particular a legal or capital link.

This structural link encompasses mainly two notions:

- (i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to an applicant may hence be:

- Entities directly or indirectly controlled by the applicant (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by the applicant (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
 - Entities directly or indirectly controlling the applicant (parent companies). Likewise, they may be entities controlling an entity controlling the applicant;
 - Entities under the same direct or indirect control as the applicant (sister companies).
- (ii) Membership, i.e. the applicant is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the applicant participates in the same entity (e.g. network, federation, association,) as the proposed affiliated entities.

The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to an applicant even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called 'sole applicants' or 'sole beneficiaries'. A sole applicant or a sole beneficiary is a legal entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

² The updated lists of sanctions are available at www.sanctionsmap.eu.

Please note that the sanctions map is an IT tool for identifying the sanctions regimes. The source of the sanctions stems from legal acts published in the Official Journal (OJ). In case of discrepancy between the published legal acts and the updates on the website it is the OJ version that prevails.

What is not an affiliated entity?

The following are not considered entities affiliated to an applicant:

- Entities that have entered into a (procurement) contract or subcontract with an applicant, act as concessionaires or delegates for public services for an applicant,
- Entities that receive financial support from the applicant,
- Entities that cooperate on a regular basis with an applicant on the basis of a memorandum of understanding or share some assets,
- Entities that have signed a consortium agreement under the grant contract (unless this consortium agreement leads to the creation of a ‘sole applicant’ as described above).

How to verify the existence of the required link with an applicant?

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the applicant and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the applicant constitutes or in which the applicant participates.

If the applicants are awarded a grant contract, their affiliated entity(ies) will not become beneficiary(ies) of the action and signatory(ies) of the grant contract. However, they will participate in the design and in the implementation of the action and the costs they incur (including those incurred for implementation contracts and financial support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the beneficiary(ies) under the grant contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the lead applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Part B Section 5 of the grant application form.

2.1.3. Associates and contractors

The following entities are not applicants nor affiliated entities and do not have to sign the ‘mandate for co-applicant(s)’ or ‘affiliated entities’ statement’:

- Associates

Other organisations or individuals may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant, with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in Section 2.1.1. Associates must be mentioned in Part B Section 6 — ‘Associates participating in the action’ — of the grant application form.

- Contractors

The beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

2.1.4. Eligible actions: actions for which an application may be made

Definition: An action is composed of a set of activities.

Duration: The initial planned duration of an action may not exceed 12 months. The action has to be implemented by July 31st 2023, the latest.

Sectors or themes:

The call of proposal is expected to contribute to CSO monitoring capacity and ensuring sufficiency of data on practical implementation of national law and policies related to human trafficking as well as enabling a pathway for CSOs to directly engage in national and regional activities. Priority of the action is to support civil society initiatives to contribute to monitoring and collecting data for reporting on implementation of the legal framework and policies regarding provision of assistance to victims of THB, with focus on the rights of women victims of THB within the NRM.

The results to be achieved through sub granting process in total include:

- support to at least 3 CSOs (of which 50% are women led) to implement monitoring and reporting actions aimed at improving practices of NRM;
- monitoring at least 10 cases of THB throughout the services provision process in line with NRM and methodology that will be provided by IFS-EMMAUS;
- establishing strong working relationship between CSOs and coordination teams in FBiH, RS and BD.

Based upon victim-centred monitoring methodology for National Referral Mechanism (NRM), sub-granting awarded three (3) CSO will, over 12 months, monitor processes of treatment of victims by relevant institutions and professionals in NRM as per requirements of relevant international standards and national legislation. After each CSO has submitted the findings and analysis of their monitoring, IFS EMMAUS will publish of a Policy report, which will sum-up findings of monitoring of victim treatment in NRM, identify gaps and propose recommendations for both policy makers and practitioners. At the report is expected to be finalised towards the end of this action, it will serve as basis for improvement of the NRM in BiH, as well as input for the preparation of the next BiH Strategy for Suppression of THB for the period 2024-2027.

Location: Actions must take place in: Bosnia and Herzegovina.

Types of action

The following types of action are ineligible:

- actions concerned only or mainly with individual sponsorships for participation in workshops, seminars, conferences and congresses;
- actions concerned only or mainly with individual scholarships for studies or training courses;
- actions essentially focused on construction activities, purchase of equipment, purchase and/or renovation of building or offices;
- actions aiming predominantly at charitable donations and profit making activities;
- actions which are already funded by the EU and undertaken before the date of contract signature.

Types of activity

The types of activities eligible for financial support (this is a fixed list):

- actions aimed at monitoring of human trafficking cases and data collection;
- documenting and reporting on cases of human trafficking including monitoring of provision of assistance and services to victims on the basis of monitoring tool to be developed by on IFS Emmaus;
- contribution to writing of monitoring reports
- advocacy and promotion activities related to human trafficking
- testing innovative approaches to transparency and advocacy

- national level networking focused on combating all forms of human trafficking.

Financial support to third parties³

Applicants may not propose financial support to third parties.

In compliance with the present guidelines and notably of any conditions or restrictions in this Section, the lead applicant should define mandatorily in Section 2.1.1 of the grant application form:

- (i) the overall objectives, the specific objective(s) and the outputs⁴ (i.e. the results) to be achieved with the financial support
- (ii) the different types of activities eligible for financial support, on the basis of a fixed list
- (iii) the types of persons or categories of persons which may receive financial support
- (iv) the criteria for selecting these entities and giving the financial support
- (v) the criteria for determining the exact amount of financial support for each third entity, and
- (vi) the maximum amount which may be given.

In all events, the mandatory conditions set above for giving financial support (points (i) to (vi)) have to be strictly defined in the grant contract as to avoid any exercise of discretion.

Visibility

The applicants must take all necessary steps to publicise the fact that the European Union has financed or co-financed the action. As far as possible, actions that are wholly or partially funded by the European Union must incorporate information and communication activities designed to raise the awareness of specific or general audiences of the reasons for the action and the EU support for the action in the country or region concerned, as well as the results and the impact of this support.

Applicants must comply with the objectives and priorities and guarantee the visibility of the EU financing (see the Communication and Visibility Manual for EU external actions specified and published by the European Commission at http://ec.europa.eu/europeaid/funding/communication-and-visibility-manual-eu-external-actions_en).

Number of applications and grants per applicants / affiliated entities

The lead applicant may not submit more than 1 application under this call for proposals.

The lead applicant may not be awarded more than 1 grant(s) under this call for proposals.

The lead applicant may be a co-applicant or an affiliated entity in another application at the same time.

A co-applicant/affiliated entity may be the co-applicant or affiliated entity in more than 1 application(s) under this call for proposals.

A co-applicant/affiliated entity may be awarded more than 1 grant(s) under this call for proposals.

³ These third parties are neither affiliated entity(ies) nor associates nor contractors.

⁴ As per OECD DAC definition, the term 'results' includes: 'impact' (overall objective), 'outcome(s)' (specific objective(s) and 'output(s)'.

2.1.5. Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

The reimbursement of eligible costs may be based on any or a combination of the following forms:

– financing not linked to costs of the relevant operations based on:

(i) either the fulfilment of conditions set out in sector specific legislation or Commission Decisions;

or

(ii) the achievement of results measured by reference to the previously set milestones or through performance indicators;

- actual costs incurred by the beneficiary(ies) and affiliated entity(ies);
- one or more simplified cost options.

Simplified cost options may take the form of:

- **unit costs:** covering all or certain specific categories of eligible costs which are clearly identified in advance by reference to an amount per unit.
- **lump sums:** covering in global terms all or certain specific categories of eligible costs which are clearly identified in advance.
- **flat-rate financing:** covering specific categories of eligible costs which are clearly identified in advance by applying a percentage fixed ex ante.

Simplified costs options (SCOs) are divided in two categories:

1/ "output or result based SCOs": this category includes costs linked to outputs, results, activities, deliverables in the framework of a specific project (for example the determination of a lump sum for the organization of a conference, or for the realisation of a determined output/activity). Where possible and appropriate, lump sums, unit costs or flat rates shall be determined in such a way to allow their payment upon achievement of concrete outputs and/or results. This type of SCO can be proposed by the Beneficiary (no threshold is applicable) at proposal's stage. In case the evaluation committee and the contracting authority are not satisfied with the quality of the justification provided reimbursement on the basis of actually incurred costs is always possible.

2/ "other/recurrent SCOs". This second category entails simplified cost options embedded in the cost accounting practices of the beneficiary, for which an ex-ante assessment is deemed necessary, considering the need of a consistent application of the conditions required. Examples are: an additional percentage on actual salaries to cover remuneration-related costs or the use of an allocation method to apportion costs of a project office foreseen in the Description of the Action. In order the use of systemic/recurrent SCOs, the beneficiary's cost accounting practices need to have been positively assessed by an audit firm based on standard ToRs provided by the Commission. To obtain reimbursement of this category of SCOs, the beneficiary shall make reference to the previously obtained ex-ante assessment in the budget justification sheet (annex B).

The amounts or rates have to be based on estimates using objective data such as statistical data or any other objective means or with reference to certified or auditable historical data of the applicants or the affiliated entity(ies). Determining SCO is possible also through 'expert judgement' provided by internally available experts or procured in accordance with the applicable rules. Experts must be either commissioned auditors or chartered accountants, or staff of the Commission but cannot be staff of the beneficiary. The methods used to determine the amounts or rates of unit costs, lump sums or flat-rates must comply with the criteria established in Annex K, and especially ensure that the costs correspond fairly to the actual costs incurred by the beneficiary(ies) and affiliated entity(ies), are in line with their cost accounting practices, no profit is made and the costs are not already covered by other sources of funding (no double funding). Refer to Annex

K for the details of the procedure to be followed depending on the type and amount of the costs to be declared as SCO.

Applicants proposing this form of reimbursement, must clearly indicate in worksheet no.1 of Annex B, each heading/item of eligible costs concerned by this type of financing, i.e. add the reference in capital letters to 'UNIT COST' (per month/flight etc.), 'LUMPSUM', 'FLAT RATE' in the Unit column (see example in Annex K).

Additionally, in Annex B, in the second column of worksheet no.2, 'Justification of the estimated costs' per each of the corresponding budget item or heading applicants must:

- describe the information and methods used to establish the amounts of unit costs, lump sums and/or flat-rates, to which costs they refer, etc for output or result based SCO.
- clearly explain the formulas for calculation of the final eligible amount for output or result based SCO⁵
- make reference to the previously obtained ex-ante assessment for other/recurrent SCOs.

In case of output or result based SCOs the evaluation committee and the contracting authority decide whether to accept the proposed amounts or rates on the basis of the provisional budget submitted by the applicants, by analysing factual data of grants carried out by the applicants or of similar actions. In case the evaluation committee and the contracting authority are not satisfied with the quality of the justification provided reimbursement on the basis of actually incurred costs is always possible.

No threshold is set ex-ante for the total amount of financing that can be authorised by the contracting authority on the basis of simplified cost options. Other/recurrent SCOs can be declared only if previously successfully ex-ante assessed.

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the grant contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the contracting authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicants' interest to provide a **realistic and cost-effective budget**.

The grant may take the form of a single lump-sum covering the entire eligible costs of an action or a work programme.

Single lump sums may be determined on the basis of the estimated budget, which should comply with the principles of economy, efficiency and effectiveness. Compliance with these principles shall be verified ex ante at the time of evaluation of the grant application.

When authorising single lump sums the authorising officer responsible shall comply with the conditions applicable to output or result based SCOs.

When using this form of financing, the description of the action shall include detailed information on the essential conditions triggering the payment, including, where applicable, the achievement of outputs and/or results.

⁵ Examples:- for staff costs: number of hours or days of work * hourly or daily rate pre-set according to the category of personnel concerned;- for travel expenses: distance in km * pre-set cost of transport per km; number of days * daily allowance pre-set according to the country;- for specific costs arising from the organization of an event: number of participants at the event * pre-set total cost per participant etc.

The responsible authorising officer may consider that the usual cost accounting practices of the beneficiary are compliant with the conditions applicable to simplified cost options, if they are accepted by national authorities under comparable funding schemes. In this case the grant beneficiary shall demonstrate that the national authority accepted the cost accounting practices and will have to specify in which context this acceptance is given.

The evaluation committee and the contracting authority will assess if the funding scheme is comparable and in case of positive outcome will consider these practices as if they were ex-ante assessed by an external auditor.

Eligible direct costs

To be eligible under this call for proposals, costs must comply with the provisions of Article 14 of the general conditions to the standard grant contract (see Annex G of the guidelines). Furthermore, the budget will follow EU budget template that IFS EMMAUS is using for the action.

The applicants (and where applicable their affiliated entities) agree that the expenditure verification(s) referred to in Article 15.7 of the general conditions to the standard grant contract (see Annex G of the guidelines) will be carried out by the contracting authority or any external body authorised by the European Commission/IFS-EMMAUS.

Contingency reserve

The budget may include a contingency reserve not exceeding 5 % of the estimated direct eligible costs. It can only be used with the **prior written authorisation** of the contracting authority.

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7 % of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard grant contract. The lead applicant may be asked to justify the percentage requested before the grant contract is signed. However, once the flat rate has been fixed in the special conditions of the grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to beneficiaries or affiliated entities free of charge by a third party. As contributions in kind do not involve any expenditure for beneficiaries or affiliated entities, they are normally not eligible costs.

Given that the grant needs to cover the entire eligible costs of the action, no contribution in kind shall be considered as costs.

Ineligible costs

The following costs are not eligible:

- debts and debt service charges (interest);
- provisions for losses or potential future liabilities;
- costs declared by the beneficiary(ies) and financed by another action or work programme receiving a European Union (including through EDF) grant;
- purchases of land or buildings, except where necessary for the direct implementation of the action, in which case ownership must be transferred in accordance with Article 7.5 of the general conditions of the standard grant contract, at the latest at the end of the action;
- currency exchange losses;
- credit to third parties;
- salary costs of the personnel of national administrations;

Ethics clauses and Code of Conduct

a) Absence of conflict of interest

The applicant must not be affected by any conflict of interest and must have no equivalent relation in that respect with other applicants or parties involved in the actions. Any attempt by an applicant to obtain confidential information, enter into unlawful agreements with competitors or influence the evaluation committee or the contracting authority during the process of examining, clarifying, evaluating and comparing applications will lead to the rejection of its application and may result in administrative penalties according to the Financial Regulation in force.

b) Respect for human rights as well as environmental legislation and core labour standards

The applicant and its staff must comply with human rights. In particular and in accordance with the applicable act, applicants who have been awarded contracts must comply with the environmental legislation including multilateral environmental agreements, and with the core labour standards as applicable and as defined in the relevant International Labour Organisation conventions (such as the conventions on freedom of association and collective bargaining; elimination of forced and compulsory labour; abolition of child labour).

Zero tolerance for sexual exploitation and sexual abuse:

The European Commission applies a policy of 'zero tolerance' in relation to all wrongful conduct which has an impact on the professional credibility of the applicant.

Physical abuse or punishment, or threats of physical abuse, sexual abuse or exploitation, harassment and verbal abuse, as well as other forms of intimidation shall be prohibited.

c) Anti-corruption and anti-bribery

The applicant shall comply with all applicable laws and regulations and codes relating to anti-bribery and anti-corruption. The European Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process or during the execution of a contract and if the contracting authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or execution of a contract already concluded with the contracting authority.

d) Unusual commercial expenses

Applications will be rejected or contracts terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a payee who is not clearly identified or commissions paid to a company which has every appearance of being a front company.

Grant beneficiaries found to have paid unusual commercial expenses on projects funded by the European Union are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU/EDF funds.

e) Breach of obligations, irregularities or fraud

The contracting authority reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to breach of obligations, irregularities or fraud. If breach of obligations, irregularities or fraud are discovered after the award of the contract, the contracting authority may refrain from concluding the contract.

2.2. HOW TO APPLY AND THE PROCEDURES TO FOLLOW

Information in PADOR will not be drawn upon in the present call.

All interested applicants will be invited to submit proposals outlining programmatic proposal, a budget and financial/expertise overview.

- 1) Programmatic proposal will include following sections: a) problem description; b) description of beneficiaries and target groups; c) relevance of the action to the beneficiary and target group needs and priorities; d) overall and specific objectives (including SMART indicators); e) expected outcomes (results) and outputs (including SMART success indicators); f) description of the action and activities; g) indicative plan of action; and h) risks and mitigation measures.
- 2) A budget will follow EU budget template that IFS EMMAUS is using for the action.
- 3) Financial/expertise overview will include the following:
 - last 3 years' financial report submitted to governmental bodies;
 - proof of registration;
 - organisational strategy and annual/impact reports (if available);
 - two (2) capability recommendation letters. (Donor, CSO peers, beneficiary letters will be accepted).

2.2.1. Application forms

Applications must be submitted in accordance with the instructions on the concept note and the full applications in the grant application form annexed to these guidelines (Annex A).

Applicants must apply in English.

Any error or major discrepancy related to the points listed in the instructions on the concept note or any major inconsistency in the application e.g. if the amounts in the budget worksheets are inconsistent) may lead to the rejection of the application.

Clarifications will only be requested when the information provided is unclear and thus prevents the Contracting Authority from conducting an objective assessment.

Hand-written applications will not be accepted.

Please note that only the grant application form and the published annexes which have to be filled in (budget, logical framework) will be evaluated. It is therefore of utmost importance that these documents contain ALL the relevant information concerning the action.

With the application the lead applicant also has to submit completed PADOR registration form (Annex F) for the lead applicant, each (if any) co-applicants and each (if any) affiliated entities.

No additional annexes should be sent.

2.2.2. Where and how to send applications

Applications must be submitted in one original and 1 copy in A4 size, each bound. The complete application form (Part A: concept note and Part B: full application form), budget and logical framework must also be supplied in electronic format (CD-ROM) in a separate and single file (i.e. the application must not be split into several different files). The electronic file must contain **exactly the same** application as the paper version enclosed.

The checklist (Section 7 of Part B of the grant application form) and the declaration by the lead applicant (Section 8 of Part B of the grant application form) must be stapled separately and enclosed in the envelope.

Where a lead applicant sends several different applications (if allowed to do so by the guidelines of the call), each one has to be sent separately.

The outer envelope must bear the **reference number and the title of the call for proposals**, together with the full name and address of the lead applicant, and the words 'Not to be opened before the opening session' and '**Ne otvarati prije zasjedanja komisije za odabir**'.

Applications must be submitted in a sealed envelope by registered mail, private courier service or by hand-delivery (a signed and dated certificate of receipt will be given to the deliverer) at the address below:

Postal address:

MFS-EMMAUS;

Paromlinska 10,

71 000 Sarajevo, Bosna i Hercegovina

Address for hand delivery:

MFS-EMMAUS

Paromlinska 10,

71 000 Sarajevo, Bosna i Hercegovina

Applications sent by any other means (e.g. by fax or by e-mail) or delivered to other addresses will be rejected.

Lead applicants must verify that their application is complete using the checklist (Section 7 of Part B of the grant application form). Incomplete applications may be rejected.

2.2.3. *Deadline for submission of applications*

The applicants' attention is drawn to the fact that there are two different systems for sending applications/full proposals: one is by post or private courier service, the other is by hand delivery.

In the first case, the application/full proposal must be sent before the date for submission, as evidenced by the postmark or deposit slip, but in the second case it is the acknowledgment of receipt given at the time of the delivery of the application/full proposal which will serve as proof.

Any application submitted after the deadline will automatically be rejected.

The contracting authority may, for reasons of administrative efficiency, reject any application submitted on time to the postal service but received, for any reason beyond the contracting authority's control, after the effective date of approval of the first evaluation step (i.e. concept note), if accepting applications that were submitted on time but arrived late would considerably delay the award procedure or jeopardise decisions already taken and notified. (see indicative calendar under Section 2.5.2).

2.2.4. *Further information about applications*

Questions may be sent by e-mail no later than 21 days before the deadline for the submission of applications to the below address(es), indicating clearly the reference of the call for proposals:

E-mail address: sarajevo@mfs-emmaus.ba

In order to further support the CSOs, the applicants are strongly encouraged to by July 30th 2022 approach our partners *PraktisksSolidaritet* organisation for mentoring and support in polishing Annex C: Logical Framework and Annex B: Budget of the Action. The application needs to be 80% finished so that it be taken into the mentoring process.

Mentoring/support shall not be available past August 4th 2022

E-mail address: Louise Hammerud louise.hammerud@praktisksolidaritet.se

The contracting authority has no obligation to provide clarifications to questions received after this date.

Replies will be given no later than 11 days before the deadline for the submission of applications.

To ensure equal treatment of applicants, the contracting authority cannot give a prior opinion on the eligibility of lead applicants, co-applicants, affiliated entity(ies), an action or specific activities.

2.3. EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the contracting authority with the possible assistance of external assessors. All applications will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in Section 2.1, the application will be rejected on this sole basis.

(1) STEP 1: OPENING & ADMINISTRATIVE CHECKS AND CONCEPT NOTE EVALUATION

During the opening and administrative check the following will be assessed:

- If the deadline has been met. Otherwise, the application will be automatically rejected.
- If the application satisfies all the criteria specified in the checklist in Section 7 of Part B of the grant application form. This includes also an assessment of the eligibility of the action. If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The concept notes that pass this check will be evaluated on the relevance and design of the proposed action.

The concept notes will receive an overall score out of 50 using the breakdown in the evaluation grid below. The evaluation will also check on compliance with the instructions on how to complete the concept note, which can be found in Part A of the grant application form.

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Scores*

1. Relevance of the action	Sub-score	20
1.1 How relevant is the proposal to the objectives and priorities of the call for proposals and to the specific themes/sectors/areas or any other specific requirement stated in the guidelines for applicants? Are the expected results of the action aligned with the priorities defined in the guidelines for applicants (section 1.2)?	5	
1.2 How relevant is the proposal to the particular needs and constraints of the target country, region(s) and/or relevant sectors (including synergy with other development initiatives and avoidance of duplication)?	5	
1.3 How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs (as rights holders and/or duty bearers) and constraints been clearly defined and does the proposal address them appropriately?	5	
1.4 Does the proposal contain particular added-value elements (e.g. innovation, best practices) and the other additional elements indicated under 1.2. of the guidelines for applicants?	5	
2. Design of the action	Sub-score	30
2.1 How coherent is the overall design of the action? Does the proposal indicate the expected results to be achieved by the action? Does the intervention logic explain the rationale to achieve the expected results?	5x2**	
2.2 Does the design reflect a robust analysis of the problems involved, and the capacities of the relevant stakeholders?	5	
2.3 Does the design take into account external factors (risks and assumptions)?	5	

2.4 Are the activities feasible and consistent in relation to the expected results (including timeframe)? Are results (output, outcome and impact) realistic?	5	
2.5 To which extent does the proposal integrate relevant cross-cutting elements such as environmental/climate change issues, promotion of gender equality and equal opportunities, needs of disabled people, rights of minorities and rights of indigenous peoples, youth, combating HIV/AIDS (if there is a strong prevalence in the target country/region)?	5	
TOTAL SCORE		50

* Note: A score of 5 (very good) will only be allocated if the proposal specifically addresses more than the required minimum number of priorities as indicated in Section 1.2 (objectives of the programme) of these guidelines.

**this score is multiplied by 2 because of its importance

Once all concept notes have been assessed, a list will be drawn up with the proposed actions ranked according to their total score.

Firstly, only the concept notes with a score of at least 30 will be considered for pre-selection.

Secondly, the number of concept notes will be reduced, taking account of the ranking, to the number of concept notes whose total aggregate amount of requested contributions is equal to EUR 90,000.00 of the available budget for this call for proposals. The amount of requested contributions of each concept note will be based on the indicative financial envelopes for each lot, where relevant.

After the evaluation of concept notes, the contracting authority will send letters to all lead applicants, indicating whether their application was submitted by the deadline, informing them of the reference number they have been allocated, whether the concept note was evaluated and the results of that evaluation.

(2) STEP 2: EVALUATION OF THE FULL APPLICATION

Firstly, the following will be assessed:

- If the full application satisfies all the criteria specified in the checklist (Section 7 of Part B of the grant application form). This includes also an assessment of the eligibility of the action. If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The full applications that pass this check will be further evaluated on their quality, including the proposed budget and capacity of the applicants and affiliated entity(ies). They will be evaluated using the evaluation criteria in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

The selection criteria help to evaluate the applicant(s)'s and affiliated entity(ies)'s operational capacity and the lead applicant's financial capacity and are used to verify that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding (this only applies to lead applicants);
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This applies to applicants and any affiliated entity(ies).

The award criteria help to evaluate the quality of the applications in relation to the objectives and priorities set forth in the guidelines, and to award grants to projects which maximise the overall effectiveness of the call for proposals. They help to select applications which the contracting authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the call for proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

The evaluation grid is divided into Sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Evaluation grid

Section	Maximum Score
1. Financial and operational capacity	20
1.1 Do the applicants and, if applicable, their affiliated entity(ies) have sufficient in-house experience of project management?	5
1.2 Do the applicants and, if applicable, their affiliated entity(ies) have sufficient in-house technical expertise? (especially knowledge of the issues to be addressed)	5
1.3 Do the applicants and, if applicable, their affiliated entity(ies) have sufficient in-house management capacity? (Including staff, equipment and ability to handle the budget for the action)?	5
1.4 Does the lead applicant have stable and sufficient sources of finance?	5
2. Relevance	20
<i>Score transferred from the Concept Note evaluation</i>	
3. Design of the action	15
3.1 How coherent is the design of the action? Does the proposal indicate the expected results to be achieved by the action? Does the intervention logic explain the rationale to achieve the expected results? Are the activities proposed appropriate, practical, and consistent with the envisaged outputs and outcome(s)?	5
3.2 Does the proposal/Logical Framework include credible baseline, targets and sources of verification? If not, is a baseline study foreseen (and is the study budgeted appropriately in the proposal)?	5
3.3 Does the design reflect a robust analysis of the problems involved, and the capacities of the relevant stakeholders?	5
4. Implementation approach	15
4.1 Is the action plan for implementing the action clear and feasible? Is the timeline realistic?	5
4.2 Does the proposal include an effective and efficient monitoring system? Is there an evaluation planned (previous, during or/and at the end of the implementation)?	5
4.3 Is the co-applicant(s)'s and affiliated entity(ies)'s level of involvement and participation in the action satisfactory?	5
5. Sustainability of the action	15
5.1 Is the action likely to have a tangible impact on its target groups?	5

5.2 Is the action likely to have multiplier effects, including scope for replication, extension, capitalisation on experience and knowledge sharing?	5
5.3 Are the expected results of the proposed action sustainable?: - Financially (<i>e.g. financing of follow-up activities, sources of revenue for covering all future operating and maintenance costs</i>) - Institutionally (<i>will structures allow the results of the action to be sustained at the end of the action? Will there be local 'ownership' of the results of the action?</i>) - At policy level (where applicable) (<i>what will be the structural impact of the action — e.g. improved legislation, codes of conduct, methods</i>) - Environmentally (if applicable) (<i>will the action have a negative/positive environmental impact?</i>)	5
6. Budget and cost-effectiveness of the action	15
6.1 Are the activities appropriately reflected in the budget?	/ 5
6.2 Is the ratio between the estimated costs and the results satisfactory?	/ 10
Maximum total score	100

If the total score for Section 1 (financial and operational capacity) is less than 12 points, the application will be rejected. If the score for at least one of the subsections under Section 1 is 1, the application will also be rejected.

If the lead applicant applies without co-applicants or affiliated entities the score for point 4.3 shall be 5 unless the involvement of co-applicants or affiliated entities is mandatory according to these guidelines for applicants.

Provisional selection

After the evaluation, a table will be drawn up listing the applications ranked according to their score. The highest scoring applications will be provisionally selected until the available budget for this call for proposals is reached. In addition, a reserve list will be drawn up following the same criteria. This list will be used if more funds become available during the validity period of the reserve list.

(3) STEP 3: VERIFICATION OF ELIGIBILITY OF THE APPLICANTS AND AFFILIATED ENTITY(IES)

The eligibility verification will be performed on the basis of the supporting documents requested by the contracting authority (see Section 2.4). It will by default only be performed for the applications that have been provisionally selected according to their score and within the available budget for this call for proposals.

- The declaration by the lead applicant (Section 8 of Part B of the grant application form) will be cross-checked with the supporting documents provided by the lead applicant. Any missing supporting document or any incoherence between the declaration by the lead applicant and the supporting documents may lead to the rejection of the application on that sole basis.
- The eligibility of applicants and the affiliated entity(ies) will be verified according to the criteria set out in Sections 2.1.1, 2.1.2 and 2.1.3.

Any rejected application will be replaced by the next best placed application on the reserve list that falls within the available budget for this call for proposals.

2.4. NOTIFICATION OF THE CONTRACTING AUTHORITY'S DECISION

2.4.1. Content of the decision

The lead applicants will be informed in writing of the contracting authority's decision concerning their application and, if rejected, the reasons for the negative decision.

An applicant believing that it has been harmed by an error or irregularity during the award process may lodge a complaint. See further Section 2.4.15 of the practical guide.

Applicants and, if they are legal entities, persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations of early detection or exclusion, their personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the early detection and exclusion system, and communicated to the persons and entities concerned in relation to the award or the execution of a grant contract.

For more information, you may consult the privacy statement available on http://ec.europa.eu/budget/explained/management/protecting/protect_en.cfm

2.4.2. Indicative timetable

	DATE	TIME
1. Information meeting (if any)	Not applicable	Not applicable
2. Deadline for requesting any clarifications from the contracting authority	July 30 th , 2021	12:00 CET
3. Last date on which clarifications are issued by the contracting authority	August 4 th , 2022	-
4. Deadline for submission of applications	August 15 th , 2022	16:30 CET
5. Information to lead applicants on opening, administrative checks and concept note evaluation (Step 1)		-
7. Information to lead applicants on the evaluation of the full applications (Step 2)	August 22 nd , 2022	-
8. Notification of award (after the eligibility check) (Step 3)	August 26 th , 2022	-
9. Contract signature	August 29 th , 2022	-

All times are in the time zone of the country of the contracting authority.

This indicative timetable refers to provisional dates (except for dates 2, 3, and 4) and may be updated by the contracting authority during the procedure. In such cases, the updated timetable will be published on <https://www.sigurnodijete.ba/>

2.5. CONDITIONS FOR IMPLEMENTATION AFTER THE CONTRACTING AUTHORITY'S DECISION TO AWARD A GRANT

Following the decision to award a grant, the beneficiary(ies) will be offered a contract based on the standard grant contract (see Annex G of these guidelines). By signing the application form (Annex A of these guidelines), the applicants agree, if awarded a grant, to accept the contractual conditions of the standard grant contract. Where the coordinator is an organisation whose pillars have been positively assessed, it will sign a contribution agreement based on the contribution agreement template. In this case references to provisions of the standard grant contract and its annexes shall not apply. References in these guidelines to the grant contract shall be understood as references to the relevant provisions of the contribution agreement .

Implementation contracts

Where implementation of the action requires the beneficiary(ies) and its affiliated entity(ies) (if any) to award procurement contracts, those contracts must be awarded in accordance with Annex IV to the standard grant contract.

In this context, a distinction should be made between awarding implementation contracts and subcontracting parts of the action described in the proposal, i.e. the description of the action annexed to the grant contract ,

such subcontracting being subject to additional restrictions (see the general terms and conditions in the model grant contract).

Awarding implementation contracts: implementation contracts relate to the acquisition by beneficiaries of routine services and/or necessary goods and equipment as part of their project management; they do not cover any outsourcing of tasks forming part of the action that are described in the proposal, i.e. in the description of the action annexed to the grant contract .

Subcontracting: Subcontracting is the implementation, by a third party with which one or more beneficiaries have concluded a procurement contract, of specific tasks forming part of the action as described in annex to the grant contract (see also the general terms and conditions in the model grant contract).

3. LIST OF ANNEXES

DOCUMENTS TO BE COMPLETED

- Annex A: Grant application form (Word format)
- Annex B: Budget (Excel format)
- Annex C: Logical framework (Word format)
- Annex E: Financial identification form
- Annex F: PADOR registration form

DOCUMENTS FOR INFORMATION

- Annex G: Standard grant contract
 - Annex II: general conditions
 - Annex IV: contract award rules
 - Annex V: standard request for payment
 - Annex VI: model narrative and financial report
- Annex H: Declaration on Honour
- Annex I: Daily allowance rates (per diem), available at the following address:
http://ec.europa.eu/europeaid/funding/about-procurement-contracts/procedures-and-practical-guide-prag/diems_en
- Annex J: Information on the tax regime applicable to grant contracts signed under the call.
- Annex K: Guidelines for assessing simplified cost options.
